

Aerospace Homework (4-13-20)

Don't forget to send me an email! At larin@centralschools.org

You can submit your work at any time!

(Remember, it for ½ credit!!)

And again, what I posted for the week of 3/23 – 3/37/20 applies for all the weeks that we are out of school. Try to get one assignment in for each week we're out. You can do an on line research, or a construction of something like a Space Station, or a drawing of something like a Mars' Rover you designed - you pick, but only one of these per week. If you pick to do a project, and it turns out to be a pretty extensive one, then I can count that for 2 weeks instead of one. The main thing is to have fun while you're learning something new in Aerospace!

Stay healthy and busy, Mr. Larivee
