

# Aerospace Activity (5-11-20)

Send me an email! What are you up to?

[larin@centralschools.org](mailto:larin@centralschools.org)

You can submit your work at any time, but now for 5 virtual BW coins for every assignment done!!!

You already have the ½ credit for the course, if you passed Q3!!!  
(That's the directive from the district)

Okay, this is your last assignment for the year that I'll be posting. As stated in earlier postings, the assignments I posted for the week of 3/23 – 3/31/20 applies for all the weeks that we are out of school till we're done, which I just found out is May 15 for BWTC. Again, you will get BW coins for your effort, which you can trade in for good stuff when we return next year (even if you graduated)!! Again, you can do an on line research, or a construction of something like the "Hubble Space Telescope", or a drawing of something like an "Intergalactic Space Explorer" that you created - you pick. Hopefully you've had fun with these assignments and learned more about Aerospace. I've enjoyed reading the research some of you've done, and seeing some of the projects some of you took on! The main thing was to have fun while you're learning something new in Aerospace!

Stay healthy and busy till we meet again!!! Mr. Larivee
