

Aerospace Activity (5-4-20)

Send me an email! What are you up to?

larin@centralschools.org

You can submit your work at any time, but now for 5 virtual BW coins for every assignment done!!!

You already have the $\frac{1}{2}$ credit for the course, if you passed Q3!!!
(That's the directive from the district)

You should continue learning, as it's extremely important to you. As stated in earlier postings, the assignments I posted for the week of 3/23 – 3/31/20 applies for all the weeks that we are out of school till we're done in May. Try to get one assignment in for each week we're out. It's easy and you will get a ton of BW coins, which you can trade in for good stuff when we return next year, even if you graduated!! Again, you can do an on line research, or a construction of something like a Mars Exploration Rover, or a drawing of something like a "Wild rocket designs" that you created - you pick, but only one of these per week. If you pick to do a project, and it turns out to be a pretty extensive one, then I can count that for 10 BW coins instead of 5.

The main thing is to have fun while you're learning something new in
Aerospace!

Stay healthy and busy, Mr. Larivee
