

Electronic Components

Across

- 3. Creates circular motion
- 4. This motor is slow
- 6. On/Off device
- 8. Variable resistor
- 10. For sound
- 12. Uses microfarad units
- 15. Motors attach to this

Down

- 1. Programmable brain
- 2. Used to detect
- 5. Bounces sound sensor
- 7. Blows if too much power
- 9. Has three legs, amplifies
- 11. Connects all components
- 13. Resist flow of electricity
- 14. Different type of bulb
