

Student Senate Homework Packet

Students, please complete this packet on days that we would normally have class (Wednesday). Although school has been cancelled, I want to ensure that you are still getting the necessary work to keep your minds fresh and ready for when we return back to school and prepare for SkillsUSA.

Assignment:

You will create a sketch drawing for our display board.

Chapter Display

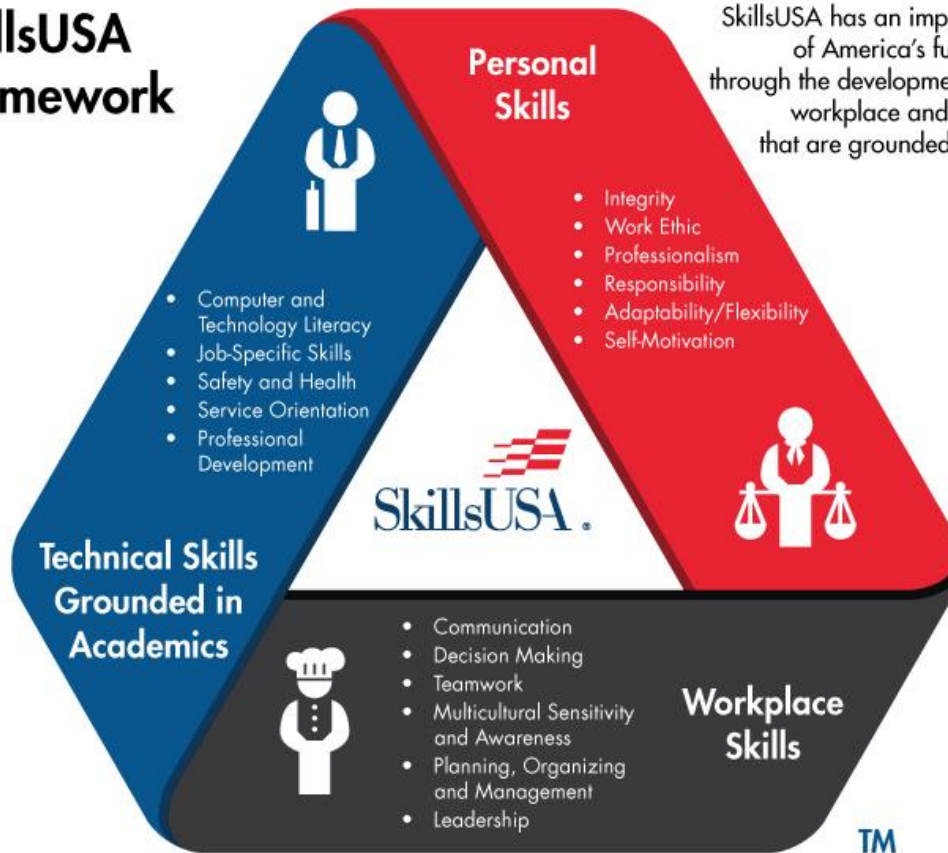

The Chapter Display contest selects the outstanding promotional exhibit that SkillsUSA student members and other students at their school design and construct. The display is built around and articulates a common theme (I'm Ready) as well as a focus on the SkillsUSA Framework. The final product should be an exhibit (display) that reveals how students enrolled in Career and Technical Education (CTE) who are involved with SkillsUSA are preparing for leadership in the world of work and will have many of the skills described in the SkillsUSA Framework.

Theme: "I'm Ready"

Requirements:

- Theme "I'm Ready"
